Web Programming – SYST10199

Assignment:

A simple game of **Rock Paper Scissors**.

The user chooses their move, and the computer chooses its move randomly, then the result is displayed on the screen using images, colors, etc. as appropriate.

The user should be able to quit anytime they want to and a running score should be displayed.

Submission:

- I will be using the **Chrome** browser to grade the assignment.
- **Submit** a zipped copy (.zip extension - .rar extension will not work) of your HTML page, CSS file, image, and audio file, etc in **SLATE Assignment #1 dropbox** by the due date.
- Your file should be named: **FIRSTNAME.LASTNAME.Assignment1.**
- Only the last submission is accepted and marked, all other submissions are ignored.
- This assignment must be completed **individually**.
  - Any attempt at cheating on the assignment will result in a grade of zero.
  - Please refer to the Academic Dishonesty Policy.
